DETAILED ACTION

The Amendment filed on May 15, 2006 has been acknowledged.

Withdrawal of Allowability

The indicated allowability of claims 16-25, 27-32, 34-41, 56, 57, 59-61, and 67-69 is withdrawn in view of the new grounds of rejection as follow.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 16-25, 27-32, 34-41, 56, 57, 59-61, and 67-69 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

The claims do not produce any tangible results. The practical application of the claimed invention cannot be realized until the information determined is conveyed to the user. For the result to be tangible, the estimated values of a plurality of electrical parameters would need to be outputted to a user or displayed to a user or stored for later use by a

user. Hence, the claims are treated as non-statutory functional descriptive material (see MPEP 2106 and

<http://www.uspto.gov/web/offices/com/sol/og/2005/week47/patgupa.htm>).

Response to Arguments

Applicant's arguments have been considered but are moot in view of the new grounds of rejection.
